About Me:

Computer engineer eager to learn, with a flexible mind and great creativity.

Social relationships are my strongest asset; I consider myself an outgoing, respectful person with strong values, as I believe they are the foundation on which any purpose is built.

I am willing to relocate

Alejandro Morales Tedone

Junior Software Engineer

Experience

React Developer - Boreal Open Systems (Internship)

01/2022 - 04/2022 (3 months)

- Developed a responsive interface using modern technologies such as React, Vite, TypeScript, TailwindCSS, and React Router.
- Designed to support both users and administrators, the interface displays real-time cybersecurity data and enables direct decision-making on the affected infrastructure.

iOS Developer – CaixaBank

01/2022 - 04/2022

- Developed and maintained key modules of CaixaBank's iOS application using Swift and SwiftUI.
- Worked in an Agile environment within cross-functional teams.
- Technologies: Xcode, Git, Jenkins, CocoaPods, Figma, Agile, REST APIs, JSON

iOS Developer – ImaginBank

08/2021 - 01/2022

- Developed and maintained new features for the iOS application of ImaginBank with a strong focus on user experience (UI/UX).
- Served as my introduction to iOS development, where I learned the fundamentals.

Freelance Developer & Tutor

2020 – Present

- Designed and developed personal projects, including:
 - A React application to manage study materials and create test questions either manually or automatically using LLMs (avoiding "Context Loss" and "hallucinations," ensuring questions and answers maintain difficulty and clarity without ambiguity).
- Provided tutoring throughout my degree in courses such as: Programming I & II, Operating Systems I & II, Concurrent and Parallel Programming, Data Structures, Algorithms, and Networks II.

Education

Bachelor's Degree in Computer Engineering

Universitat Jaume I, Spain (2018-2024)

Erasmus Program (2023 - 2024)

Skills

Frontend: React, TailwindCSS, HTML, CSS, JavaScript, Astro

Mobile: Swift, SwiftUI, UIKit

Backend & DB: Python, Java, SQL, MySQL, PostgreSQL

Other: Git, Jira, Figma, Agile (Scrum)

I am a strong team player and an effective communicator. I am skilled at explaining complex concepts in a simple way and highly value being appreciated for my work. This drives me to continuously improve and maintain this positive attitude over time.
